ARCHANGEL Home Health, Inc. provides a wealth of services by our licensed and skilled nursing staff. Our care not only includes rehabilitation therapy, but medical services such as drawing blood, lab work, coumadin level monitoring (PT/INR level), and wound vacuuming. And we provide these services at home.

Unlike many other home health care providers, we are accredited by JCAHO, which ensures the highest standard of care possible. We are also licensed by the CA Department of Public Health. So with ARCHANGEL, you can rest easy. We cover the entire Los Angeles County, and we are always available to you, 24/7.

Why do I need Home Health Services?

Of all the places in the world, everyone feels the most secure in their own home. This is where your personal history has been created. You can sit in your own chair, sleep in your own bed, and use your own personal bathroom. The familiarity of knowing your environment allows you to stay relaxed. Rest comes easier. Studies also show, that the body heals better at home, so recovery time is greatly reduced.

Archangel Home Health, Inc. is a group of loving and nurturing nursing professionals dedicated to providing direct care for the sick or elderly. Even though medical treatment is often thought of as being traumatic, we make it less so. Our goal is to do all that is needed to make life easier and more beautiful for you.

We test the psychological and emotional intelligence of our team to make sure you get the highest quality of care.

A HOME NURSING COMPANY WITH A MISSION TO PROVIDE
THE BEST CARE IN ALL OF LOS ANGELES COUNTY.

What will ARCHANGEL do for me?

A newly diagnosed medical condition or illness can be overwhelming. You, or your loved one, may need temporary assistance with recovery, help in learning to manage the illness, or support in the care and treatment of an ailing or elderly parent. With the supervision of the primary care doctor, our dedicated team will develop a personalized plan to maximize recovery. The plan of care may include:

- **Nursing:** comprehensive nursing assessments, and close monitoring of health conditions, including blood pressure, heart rate, and blood sugar, and oxygen levels.
 - Drawing blood and lab work.
 - Coumadin level monitoring (PT/INR levels).
 - Care and maintenance of urinary catheters, feeding tubes or IV therapy.
 - Heplock / PICC Line / Port-a-Cath Care.
 - Wound vacuum care.
 - Family / patient health teaching / counseling.

- **Physical therapy:** assistance with regaining muscle strength, balance, and walking.
- **Speech therapy:** assistance with language skills, swallowing, and memory problems.
- **Occupational therapy:** rehabilitation to restore bathing, cooking, and dressing skills.
- **Social Workers:** guidance with financial problems and crisis management.
- **Registered Dieticians:** dietary plans for special dietary and nutritional counseling.
